Iris Royalty

GIANTS OF THE IRIS KINGDOM

When Iris NENE was originated it gave us a new standard of excellence in the Tall Bearded Iris, a flower of huge size never before approached, but with a substance heavy enough to carry the large flower in perfect condition, a flower of grace and charm, with a rich velvety surface and nicely spaced on a flowering stalk that is in proper proportion to the size of the flower. Since the advent of Nene, others have been originated one at a time, until we now have a group of Tall Bearded Iris in the "Giant" class, in all colors. My stock of these has been increased until I now have sufficient stock to make a separate group of these "Giants of the Iris World" and to offer them at a fraction of the original cost. So here is the list, giants all, and the Royalty of Irisdom.

S—Standards (or Upper Petals)

F—Falls (or Lower Petals)

BUECHLEY'S GIANT—50 in. EARLY. One of the ten outstanding Iris in my exhibit this past season. S—soft lilac; F—flaring-soft violet. Huge brilliant flowers of perfect form, in a soft to medium blue effect. 75c.

CARNELIAN—48 in. VERY EARLY. This is by far the finest of the Early Flowering Tall Bearded Iris. It is a mammoth red tone bi-color, with perfectly formed flowers measuring seven inches from tip to tip. It is much underpriced for so fine an Iris. 75c.

EL CAPITAN—40 in. EARLY. FRAGRANT. MAMMOTH FLOWERS of manganese-violet coloring. Largest and finest of its type. 50c.

FRIEDA MOHR—42 in. EARLY. FRAGRANT. A deep pink of gigantic size and perfect form, the huge flowers being seven inches across. CONSTANT PRIZE WINNER. Frieda Mohr has deservedly been the most popular Iris in my Exhibition gardens for several seasons, as well as our biggest seller by mail. Nothing new has appeared that is equal to it in its class. Besides huge size, perfect form, good color and aristocratic bearing, it has a delicious locust fragrance, being one of the most fragrant of all Irises. Sold only a few years ago for \$25 for a single plant, it is now within the reach of all. 25c.

GIANT BALDWIN—42 in. Giant flowers of medium blue. Overshadows all others in its class. 8 to 16 flowers to a single stalk. 35c.

GRAND MONARCH—40 in. A very fine, uniform bronze-red of gigantic size, heavy substance and extremely velvety. One of the best in its color. 25c.

KING JUBA—40 in. The largest and one of the finest "Variegatas" and my personal choice of all of them. GIVEN HONORABLE MENTION BY THE AMERICAN IRIS SOCIETY. S—old gold; F—dahlia carmine. A brilliant and effective garden subject. 35c.

KLAMATH—40 in. FRAGRANT. A giant flower, of heavy substance with bronze standards, tinted violet; F—prune purple. An excellent mammoth flowered dark variety. 25c.

MARY SENNI—36 in. EARLY. FRAGRANT. Enormous flowers of good form, beautifully placed on tall strong stems, in a most delightful coloring. S—soft lilac, flushed very soft reddish brown; F—deep violet, with marginal tips the color of the standards. Since I originally imported this variety from France, I have had a growing fondness for it every time I see it in bloom, for it is a magnificent flower without a fault. In size it compares with the Giant Nene, El Capitan and others of this class, but in an entirely different, unique and beautiful color combination. \$1.00.

MELDORIC—50 in. HONORABLE MENTION AMERICAN IRIS SOCIETY. One of the largest and finest Iris of recent introduction. A blue-black of colossal size. Dr. Ayres' Masterpiece. Considered by many the finest dark Iris originated to date. \$1.00.

NENE—38 in. This very stunning Iris is THE LARGEST AND ONE OF THE FINEST INTRODUCED TO DATE. Flowers 9 to 10 inches long with petals of heavy texture. S—soft lilac; F—old rose. General effect red. 75c.

PERSIA—46 in. FRAGRANT. Massive blooms in a unique blending of deep colors, reminding one of the colors in a Persian Rug, hence the name. The flower has a glistening silky texture and is one of the finest Iris we have. A fine large stock of extra large rhizomes makes a low price possible for the first time this season. Sold for \$35 a few years ago. 35c.

QUEEN ANNE—36 in. EARLY. An exquisitely beautiful Iris entirely in a class by itself, as there is no other Iris like it. The dome-shaped standards are beautifully creped; cream colored, with a faint bronze overcast. The flaring falls are of the same color, prominently veined pansy-violet, with old-gold veining at the throat to the tip of the beard. One of my own introduction. 35c.

ROSE ASH—36 in. A very fine flower of great size and unusual color, combined with fine form and heavy substance. Color ashes of roses. 35c.

SHINING WATERS—4 to 5 ft. EARLY. VERY SWEET FRAGRANCE. This very delightful Iris is most aptly named, as there is a "sparkle" to the surface in the sunlight, similar to the sparkle of the sunlight shining on the water. On close inspection the surface seems to be studded with tiny jewels, giving this unusual sparkle. The color is a clear uniform sky-blue, of a most delightful shade. The flowers are of gigantic size, perfect form and imposing appearance, with full flaring falls. I vote it the most outstanding Iris in my exhibition gardens last season. It is much underpriced for so fine an Iris. \$1.50.

SITKA—48 in. EARLY. VERY FRAGRANT. In making a very critical comparison of all White Irises last flowering season, I was compelled to class Sitka with Gudrun for first honors. The flowers of Sitka were almost as large as Gudrun, but of purer white color, on taller stalks and better placement. The flowers are of fine form and good texture, with straight hanging falls that give a marvelous garden effect. Add to all its other good qualities an exquisite fragrance, and it leaves nothing to be desired in a perfect white Iris. It is the most underpriced Iris in this group. \$1.00.

SUNLIGHT—36 in. One of our largest and finest soft yellows. Unsurpassed as an exhibition flower. Superb under artificial light. 35c.

THEODOLINDA—42 in. A huge new "Plicata", larger than San Francisco, but in an entirely different shape, with upright standards and straight hanging falls, the standards being beautifully edged with a soft blue feather-stitching. The falls have a deeper feather-stitched edging at the throat, but lighter on the balance of the surface. An improvement in the "Plicata" group. \$1.00.

DYKES MEDAL WINNERS

The DYKES MEMORIAL MEDAL is awarded to ONLY ONE IRIS EACH YEAR IN AMERICA. A similar Award is made annually in England and France. The care with which this award is made gives assurance that the winner of this award is THE OUTSTANDING IRIS OF THE YEAR. The American Iris Society has a jury of Iris connoisseurs, located all over the United States, to judge, evaluate, criticize and rate each new arrival. This jury of accredited judges consists of about 150 members and any Iris that runs the gauntlet of this group of judges and is awarded the Dykes Memorial Medal is in a class which leaves no room for argument as to its superior quality.

The group of Iris listed below are all winners of the Dykes Memorial Medal during different years. This medal has been awarded to some of them in America and to others in England and France, the three foremost countries producing new Iris varieties. You cannot go wrong with a group of Dykes Medal Winner and I am pleased to be able to offer these very fine Irises for the first time as a collection at a modest price.

DAUNTLESS—40 in. One of the finest and purest red-toned Irises introduced to date. A magnificent flower in every way. Sold for \$35 for a single plant a few years ago. 75c.

DEPUTE NOMBLOT — Generally considered the finest Iris in the World. Of gigantic size and perfect form and texture on tall, nicely branched stems. S—copery red flushed golden bronze; F—rich claret-crimson. The entire flower seems to be lightly dusted with fine golden powder, giving it an unusual richness. 50c.

G. P. BAKER—48 in. WINNER OF A SILVER MEDAL, AS WELL AS THE DYKES MEMORIAL MEDAL AWARDED BY THE ENGLISH IRIS SOCIETY, as the greatest achievement in the light to medium shades of yellow to date of origin. S—rich primrose yellow; F—conary yellow. Gigantic flowers on profusely branching stalks, with a dozen flowers open at once. 50c.

GUDRUN—42 in. EARLY. A top notch white, among so many fine new whites. A massive flower of purest snow white. \$2.50.

JEAN CAYEUX—36 in. This is one of the most distinctive colored and beautiful Irises ever introduced. A marvelous blending of Havana and Coffee brown; nothing else like it. \$3.50.

MARY GEDDES—36 in. Among all the fine Irises considered by the judges, Mary Geddes was the one selected by the American Iris Society for the DYKES MEMORIAL MEDAL for 1936. It is a blending of lovely soft pink tones, overlaid Pomeranian Red. Eight to ten flowers to a nicely branched stalk. \$1.50.

PLUIE D'OR—41 in. WINNER OF THE DYKES MEMORIAL MEDAL. HIGHEST INTERNATIONAL HONORS, for the finest, largest, tallest deep yellow up to the time of its introduction. Sold for \$35 when first introduced. Now a large stock permits a very low price. 20c.

RAMESSES—40 in. A perfect flower in every way, in a blending of tourmaline pink and soft yellow, with a pronounced yellow glow at the centre. An extra fine stock of fine plants permits a very low price for the first time on this magnificent variety. 25c.

SAN FRANCISCO—44 in. EARLY. One of the largest and finest Iris of the "Plicata" type. A massive flower of perfect form, double the size of other "Plicatas" marking a new era in this group. White, with a feather-stitched edging of lavender-blue. An extra fine stock of fine large plants enables me to make a low price on this magnificent variety. 25c.

SIERRE BLUE—50 in. WINNER OF THE DYKES MEMORIAL MEDAL. HIGHEST INTERNATIONAL HONORS, AS THE BEST IRIS OF 1935. An exceptionally smooth, refined clear blue flower, of good substance, perfect form, enormous size, smooth texture and every other good quality that makes it a "Champion". \$2.00.

VERT GALLANT—50 in. The most prodigious bloomer of any Iris, producing 4 to 5 flowering stalks to a single rhizome. S—soft rose; F—dahlia carmine, with a one-eighth inch margin of the same color as the standards. A magnificent mass effect. 75c.

Superb Single Peony Collection

IDEAL FOR CUT FLOWERS

MAGNIFICENT IN THE GARDEN

BEAUTIFUL FOR LANDSCAPE EFFECT

Single Peonies are less common than those of the double type but even more beautiful because of the contrasting colors. They always attract a great deal of attention.

The Single Peonies are very early and profuse bloomers. They are very dependable, producing satisfactory flowers even under unfavorable weather conditions.

They stand heat and rain and last well in the open or in vases. The Singles have the pleasing habit of closing in the evening, like a water lily. Perhaps, this accounts for the freshness with which they open the next morning.

The flowers have one or two rows of large petals known as Guards or Guard Petals. These Guards surround a brilliant center of bright yellow stamens. These golden hearts are most attractive.

Because of their striking bi-color effect and grace of form these Single Peonies are greatly admired when used as cut flowers. In the garden, they produce a magnificent effect, challenging the attention of the passerby. Planted in masses, they produce a brilliant display, forming a pleasing element in the landscape.

THREE OUTSTANDING SINGLE PEONIES

A MAGNIFICENT WHITE — Snow - white petals, surrounding a golden center.

No Rose is more beautiful as a cut flower and none has ever been more popular than the famous Talisman Rose.

Exquisite Tree Peonies

Perhaps the choicest and rarest of all Hardy Shrubs are the Tree Peonies. They differ from other Peonies in the fact that they do not die back to the ground in the winter time, but continue to make a woody growth, getting larger and larger each year, eventually becoming quite a large shrub. They usually flower the first year after planting and thereafter the quantity of flowers increases each year. They are the most handsome

of all peonies and if properly cared for will last a lifetime. They are hardy without protection in the latitude of New York but when newly planted are benefited by covering the first winter. They flower during the month of May on Long Island. As cut flowers they are "Class," and last a long time when cut. Cultural directions accompany all shipments.

Except where otherwise specified, the sizes are 2 to 5 year old plants grafted on herbaceous peony roots.
